Sanitize and Prepare Data
- All group members will be involved
- Members will extract data from PDF sources if raw data cannot be obtained; this will most likely be from polls
- Due 11/16

Extracting Relevant Tweets
- All group members will be involved
- Members will extract tweets relating to relevant hashtags to Mr. Trump and the campaign; allocation of hashtags will be determined later.
- Due 11/16

Researching and Choosing Technologies for Textual Analysis
- All group members will be involved
- Members will look at relevant Hadoop and machine learning technologies for semantic/textual analysis of the data
- Due 11/30

Integration of Technologies
- All group members will be involved
- Members will combine the relevant technologies into the analytic and run it on data
- Due 12/7

Analysis of Data
- All group members will be involved
- Members will construct slides that analyze the data from the analytic and present to the class
- Due 12/14
